9:00-12:00 (registration-8:30)

Instructional Strategies for Diverse Learners

Join us to explore evidence-based evaluation and instruction for young children with complex differences.

Jill Gierach, Assistive Technology Consultant, has worked with students with multiple disabilities for over 30 years. For the most recent years she has taken that expertise into the field of assistive technology in order to expand access for those students. In this workshop, Jill will share evidence based practice in the area of:

- Assessment strategies specific to students with severe and profound multiple disabilities.
- Sensory Assessments that target modalities of learning and provide next steps for instruction

Participants will leave with a toolkit of strategies for educational evaluation, instruction and ongoing assessment.

Audience:

Teams or individuals

- ***Early Childhood: Special Education***
- ***4-Year-Old Kindergarten***
- ***5-Year-Old Kindergarten***
- ***Related service personnel***
- ***Speech Pathologists***
- ***School psychologists***
- ***Diagnostic teams***
- ***Community partners***
- ***Parents/Caregivers***

The CESA #2 IDEA Early Childhood Grant (CFDAs #84.173) acknowledges the support of the Wisconsin Department of Public Instruction in the development of this training and for the continued support of these federally-funded grants.
