Is your district a Google Apps for Education district? Are you fully integrated? Are you an administrator curious about the ins and outs of exactly what Google Apps for Ed can do for your staff, community and students? *Then this workshop is for you!* Geared toward GAFE district administrators as well as dashboard administrators to fully understand and utilize the GAFE tools available to districts, participants will explore everything from the basics of Gmail, Google Calendar, Sites, and Drive to how to leverage the power of Google+ Learning Communities and Hangouts. Following DPI's lead, we will connect with statewide and national PLCs as well as learn how to create your own district-wide or building PLCs or LMSs (learning management systems) in the safety and privacy of your school's domain. Come learn the answers to "why" you've gone Google.
