**Math Boxes** is a five day training series that will help K-5 teachers organize student learning tasks for small group instruction. The lessons are tailored to students' needs to easily allow for differentiation with content and can be integrated with any math curriculum you are already using. Designed for school TEAMS of up to 10 educators, includes:

- Two training days with Cathy Hunt, CESA 5 Math Specialist
- One follow-up day at CESA 3 in September to examine assessment data and explore it's use for instruction and SLO's
- Two days of onsite coaching with Patti Schaefer, CESA 3 STEM Coordinator
- Flash drive with all materials necessary to begin math boxes.
