

July 29 & 30

Two-day workshop includes: overview of Student Learning Objectives (SLOs), interactive discussions about data from multiple measures, and collaborative work time for examining assessment resources for Educator Effectiveness

September

Half-day workshop to share classroom data and write SLOs. The date of the meeting will be selected by participants in July.

Measures that MATTER

Target Audience

Secondary math and science teachers interested in use of assessment to inform instruction and write SLOs for Educator Effectiveness.
