Wisconsin Dells

Data Retreats® August, 2009

CESA 5 will once again be offering a Data Retreat® in August. The basic structure of the retreat will continue to be built upon the WKCE test data analysis. More attention will be placed upon the opportunity to track students, including subgroups, from year to year now that testing is longitudinal. Test data will be broken down to the school level. In addition, local assessment will become an important part of tracking student progress as data becomes available.

We will also be looking at the development of school improvement plans (SIPs). Teams will take the SIPs to the point of progress monitoring throughout the school year **and** include a breakdown of individual responsibilities in that process. The Data Retreat® process is a strategy for school and district leaders to work toward developing annual school improvement goals.

Who Should Attend?

School Data Retreat® Workshops are intended for school administrators and teachers from key grade levels and subject areas.

Comprehensive Data Binder

A test score binder is needed in the analysis process at the workshop. Each participant will receive a comprehensive data binder at no additional charge.

Data Retreat Agenda

Overview of WKCE Annual Test Result binder:

- District Proficiency Scores, Grades 3-8 & 10
- Subgroups/Student Demographics
- Issues and Concerns facing DACs
- Questions

Item Analysis and More:

- Online Data Management, WINNS, Turnleaf
- Focus Efficiency, work online
- District/State Comparison
- District/CESA 5 Comparison
- Breakdown by content area strands
- ACT data analysis for high schools
- Tracking the Progress of Each Class, Local Assessments
- Developing data analysis teams, vertical and horizontal
- Time Management Issues, Discussion

It's All About Students:

- CESA 5 Reports
- Student Scale Scores, four years
- Students of Interest, four years
- Students of interest in Content Areas
- Progress Monitoring, local assessments
- Response to Instruction
- Using Local Data

Where Do We Take It

From Here?

- Developing SIP
- Focus or Specific Levels of Test Results by Individuals, Grade levels, and Content areas
- Return to content standards' strands
- Development of Goals

- Measurements of Success/
- Team discussion; build a plan through June of 2009
- Barriers, both realized and on the horizon
 - Team Discussion
 - Report conclusions to the entire group
 - Action plan, review individuals' responsibilities

Group Discussion

- Test Preparation for Students
- Success Stories

Questions/Comments

Closing

Data Retreat Reminders

We will continue to write School Improvement Plans that go beyond the WKCE data analysis when it is appropriate to do so. The expanded view of student accomplishment requires us to view other sources of local data.
