An Introduction to the Drop-Out Early Warning System (DEWS) #9941

Tuesday, December 9, 2014
8:30 - 11:30 am
CESA 9, Tomahawk

The Dropout Early Warning System (DEWS) is a data tool that can be used to predict the risk of a 7th - 9th grade student not graduating from high school in four years.

This half-day session will provide an opportunity to try out the DEWS and related dashboards within the WISEDash data system, with a specific focus on students with disabilities.

Participants should have a WAMS ID and permission to access data for the middle school and/or high school students in their districts, and a laptop computer. Other early warning signs will also be discussed.

Audience: Administrators, Special and Regular Education teachers, School Psychologists, School Counselors, and any school staff with a vested interest in learning more about drop-out prevention

Standards: Special Ed Indicators #1 & 2

Presenter: Eva Kubinski, DPI School Administration Consultant

Cost: Free
Includes materials and snack

CESA Contact: Dr. Becky Collins
